---

As a dedicated and self-driven individual with a strong passion for software development and a solid foundation in web development technologies, I am seeking an entry-level or junior position in the software development industry. With a background in automation engineering and a deep commitment to continuous learning, I am to apply my technical skills in JavaScript, React.js, and Node.js to contribute effectively to dynamic software projects. My goal is to collaborate with experienced teams, leverage my diverse background, and become an integral part of the tech community by delivering innovative solutions and enhancing the user experience.

## Education

---

Technological University of Havana "José Antonio Echeverría", CUJAE.
